

## **Earth Day, Every Day**

AM week 5 and PM Week 1

The patterns, tutorials & lesson plans for these helpful & re-usable items will teach kids how to sew and make innovative sewing projects from start to finish. They'll also learn how to limit the impact they have on the earth by creating projects to help them do that. No more throw away hot beverage sleeves & plastic snack bags, a tote perfect to carry around your reusable water bottle, an adorable place to store shopping bags for reuse and a reusable shopping tote you'll never leave home without.
